Can Jews Be Trusted?

The Case of Hyman Lischner and Lindbergh

Is Lischner a "Jewish Stooge" ?

C. Leon de Aryan, "The Broom", etc.

Dear Sir:

I had taken the liberty to give a subscription of "The Broom" to Mrs. ———, Detroit, and since this party has received your paper, she called me and wishes I cancel the subscription at once. Will you therefore please stop sending your paper to this address and return to me subscription price less outlay for expenses incurred.

Am very sorry to have to ask you to do this, but will mail you others when possible as I have already done in the past.

We are enjoying "The Broom" immensely and would not want to miss a single issue.

By the way, relative to the stand Mr. Hyman Lischner, M. D., is taking, I and some of my friends, to whom I've given your paper to read, do not believe in the sincerity of this man. With the Jews beginning to realize that they are loosing this fight, it seems to me that he is only a stooge to get on the inside of our Christian movement and precaution should be taken in anything he says and does. Remember what Rabbi Stephen S. Wise says about himself and the rest of the Jews.

I'm sure it would do your paper more good if you let this man or any of his clique lay on the wayside. His speech was wonderful indeed if we would only be sure it came from his heart instead of the ambition of saving the Jews' face.

Yours for AMERICA FIRST.
(Signed) C ....., Detroit.

P. S. If you sometime can mail me some sample copies, I will remail same to people interested in America First.

I thank you! — C.....

Lischner Is an American First

Dear Mr. C.....

I am enclosing check for full subscription price of $2.50 which you sent in for Mrs. ———. Would not charge you a penny for having tried to popularize the BROOM with the wrong parties. Keep up the good work! It's their funeral, not ours! When they cannot stand the truth, then, we know, the war is on: that's what the whole WAR is about anyway; it staretd when Lucifer was told the TRUTH and he and rest of his Bolsheviks staged the first strike in heaven and posted their pickets so that all the faithless souls now are being prevented by his crowd from entering heaven. Heaven is "unfair" to organized devils!

Don't you realize what protection it is to us? That's the best service the Devil can give us, keeping his crowd out of heaven and putting his mark on them. You see, only souls who have greater faith in God than they have fear of the Devil and his lust for material power, dare cross his picket lines and enter heaven. All others are turned back and join the New Deal and Roosevelt's war to enthrone the Rothschild dynasty "everywhere in the world", I am telling you: "again and again and again"!

As to Dr. Lischner, stop your worries: He is true blue, I know the man and his wife and two children and his daughter Mirriam is going to carry the torch with him, even higher than he could. I know "class" when I meet them. Have been burned so badly and mutilated so often by placing my faith in the wrong people, that I have developed quite a sense of discrimination and a system of double and tripple checks to be sure of what I am doing. Lischner is O. K., in a crisis I'll stake my life on him, and for him.

You people who do not come in contact with the actors, have better watch the random notions you permit to obsess you, because you cannot pass the Devil's picket lines yourself, as long as you don't know the password and lack the feel that will tell whether to grasp or cut the outstretched hand. If you cannot rely on my reports and my intelligence, why bother about me in the first place?

It is foolish to profess a "Christian Movement" which you claim to protect by keeping untrustworthy Jews and stooges from getting "on the inside" as long as you are not a Christian in the first instance.

Who is a Christian? He who "keeps my Commandments". Therefore I say unto you: How can you love God whom you have never seen, if you don't love your neighbor whom you see?

Are you a Christian? What sort of a "Christian"?

I agree with you on Rabbi Wise, he is to have said that while he is an American for 60 years, he has been a Jew for 6000 years and his first allegiance, as well as that of every Jew, is to Jewry first.

Of course, we don't want that kind of "Americans" around here and I can fully assure you that even within this generation they will be given the passport to where they belong. In America the Americans First belong first and they are being helped by Jews, like Wise, to bring this home to the people at large. Don't worry, the people are getting wise to Wise.

That mystic Jewish tie of the blood and ancestry and dreams of a world empire controlled by the "chosen people of Jehovah" while all the "Gentiles", or pagans, or morons, meaning: not "chosen"—are to slave for their "betters" for a thousand years, this preposterous dream of Jewry for which the Zionists have been working for 6000 years, is **never going to materialize,** inspite of all the wars and carnage these Jews are instigating among ignorant and trusting nations whose finances these usurers manipulate.

Of course, this mystic Jewish tie has produced the Trotzky-Lenin-Stalin-Churchill-Roosevelt alliance. All of them have Jewish blood in their veins saturated with this lust for dominion over us, "everywhere in the world". The New Deal is honey-combed with this type of double-crossing, lying, cheating, pledge-breaking Jews. Jews who take an oath to uphold and protect and abide by our constitution merely to get into power and tear it to pieces as something belonging to the "horse and buggy age". They haven't got even enough horse sense to realize what Americans will do to them for that.

Read the Scriptures

I want you to carefully read the Jewish scriptures of the Old Testament as well as the Four Gospels. You will find enough in there to be able to distinguish between two types of Jews. The whole question lies in the nature of your own ambitions.

My ambition has always been to love the TRUTH with all my heart and all my might and all my being, because knowing the TRUTH only can we be free and I certainly refuse to bow my head under any other rule.

Now if you love the truth FIRST, you will find that there are two classes of Jews, even in blood. The class who fit the description in John VIII, 31, 32: **Jesus therefore said unto those Jews that had believed in him,** if you abide in my word THEN are ye truly my disciples; and ye shall know the truth and the truth shall make you free.

The other Jews, though talked back, John VIII, 33 to 59 and of them Jesus says in 44: Ye are of YOUR father the devil, and the lusts of your father it is your will to do.

As a Christian it is your duty, and common sense will guide you, too, to find out, individually, as you meet Jew after Jew, in which camp he belongs. Those who will starve the hungry in France, Holland, Norway, etc. in order to get even "with Hitler": put them all in the camp with THEIR father the devil. The others follow the commands of the Christ and, I, for one, am extending them the hand of Christian fellowship and trust them. I don't fear. There is a power greater than Roosevelt reigning over us and in HIM I trust, and when I trust, I go all the way in obeying HIS commandments.

Yes, it is important to know where every Jew stands, today!

This is the test, today is the DAY of Judgment. You can see them all line up: those who place their faith in murder and the lust of their father they are out to do by keeping up this war and extending it "everywhere in the world", I am saying it "again and again and again—is that CLEAR?"

And you can see those who like Lischner, realize that God rules supreme and what they do to "the least one" of those GOYIM they are doing it to HIM.

I hope I made myself clear.

Sincerely yours,
C. LEON de ARYAN.

Labor Racket

House Passes Anti-Strike Legislation

The American Manufacturers Association has joined hands with the CIO and AFL in opposing congressional action towards outlawing strikes in defense industries, on the theory that once the politicians have shackled labor and eliminated the "right" to strike, those same politicians will regiment industry and make this a totalitarian country, fascist style.

This paper is taking a position at variance with most commentators. We criticise the administration for first encouraging labor rackets through the onesided and unconstitutional Wagner Act and its biased NLRB, even though Roosevelt's packed court ruled that such enforcement in violation of the constitution is constitutional. We take no pride in a government that encourages the destruction of private rights in private industry, and protects government operations only against such sabotage of production. If it is wrong to strike against the "government" it is even more wrong to strike against the SOVEREIGN citizen. The individual citizen ranks the administration of government, because the citizen is the PRINCIPAL while the government is his hired agent.

Congress had the opportunity to do one good thing to help the working man against his labor racket bosses. That would have been a provision in the bill incorporating labor unions and forcing them to give a financial accounting to their own membership at least once a year. But congress dares not oppose the labor racketeers and protect the dues and fines paying workers. Can you imagine an honest organization that refuses to give an accounting of its financial transactions to its membership? Without this accounting, of course, the racketeer bosses will continue their arbitrary fleecing of their slaves.

Dares Not Face His Maker

They were flying across the Atlantic from South America in a commercial plane. Suddenly the plane started lurching and the pilot called out to the passengers to draw lots. One of them would have to sacrifice himself to save the others, one engine was disabled and the remainder could not ferry the full load.

Instead of drawing lots, the passengers went pale like death. Suddenly the German among them, drew himself up, klicked his heels, extended his arm, "Heil Hitler!" were his last words as he went over the side. The plane straightened out and proceeded on its way.

The other two passengers sat down, the Greek pulling out his rosary and was immersed in prayer, making his peace with God, while the Englishman chewed on the stem of his pipe. This went on for a while, when the plane gave another lurch. The second engine stalled. Again the pilot called to the passengers to draw lots, one would have to sacrifice himself.

Before the Greek had a chance to pocket his rosary, the Englishman shouted: "There will always be an England!" and grabbed the Greek by the neck and the seat of his trousers, shoving him over the side. "You are prepared to meet your Maker, I am not", muttered he to the astounded man, letting him drop into eternity.

Three Strikes in San Diego

Last week brought an epidemic of closed shop picketing in the lumber and mill industry, the automotive repair shops and among Safeway butchers. And on top of it the butcher's union has requested the city council to pass an ordinance forbidding the selling of meats outside of union hours.

In the lumber industry only Patten-Blinn were not picketed. The trouble is over wage scales, since the unions have the closed shop. When the lumbermen capitulated last year to the labor racketeers they were foolish enough to imagine that signing a contract would free them from arbitrary interruptions of work in the future. But once you sign up with a racketeer you must figure that he will step up the ante every chance he has. Through the closed shop he has you by the throat and now he can squeeze you the limit.

In the automobile industry the major dealers refuse to compel their employees to sign up with the union in order to continue in their old jobs. Some have been for 20 years and more with their establishments and to tell them that their services are not wanted unless they buy permission from a cut-throat gang of racketeers, is quite un-American and unbusinesslike because it violates the first precept of faith and mutual loyalty.

At the Safeway stores the butchers are raising their periodical cain as usual. The management is so used to it, they simply take it as one of those things, again.

And at city hall the petition of the boss racketeers of the butchers' union for a closing ordinance outside of union hours, has been referred to conference. This gives time to the citizens to inform themselves on the subject and protest control by the racketeers even of the hours when people are to be permitted to do business. Once they succeed to regulate one line of sales they can by the same token regulate sales of all commodities. The more regulation and regimentation, the nearer we come to the communistic regime so dear to President Roosevelt's heart.

Sewing Machine Racket Spoiled

MUNICIPAL JUDGE A. F. MOLINA GIVES JUDGMENT TO VICTIM

I received a telephone call a few weeks ago from Mrs. Irene Whitlow of 3630 - 30th street asking me to call on her as her last resort against being robbed by a sewing machine dealer. I hate like blazes to get mixed-up in these petty private deals and always do my darndest to get out it, but the old lady insisted over the telephone that she had listened in to my radio broadcasts and that I positively was the only person who could help her. So I called on her.

She is an old age pensioner, $41 per month from the state, and had bought a White sewing machine from the Consolidated Sewing Machine Co., 1311 - 5th Ave., through Jack D. Kingery. She said she had paid out already $16 in $4 payments; the dealer had taken her old machine as down payment, but the one he gave her positively did not work, being worse than her old one. She said he induced her to get an electric motor and then it did not work. She had paralyzed her leg trying to push with her knee against the switch to start the machine and had resorted to hand turning the machine just to make a few stitches. That the dealer had taken the machine from her under pretext of repairing it and had it in his possession, refusing to give it back, because he wanted to be paid up-to-date, even though she had not been able to use the machine. She demanded a good machine, or else her money back and her old machine.

Well, I found out that the old lady had signed away her equity in one of those lease-lend contracts the slicksters use. So I tried to get her to forget the whole deal and go to a reliable firm to get a good machine. But the old lady put on her crying cap and insisted on her money back. Well, if she wanted to get it back, the only way was to go to court. So I outlined the procedure for Small Claims Court and she went. Of course, she was scared to death, so I gave her my moral support by being present in court last Friday. She presented her own case so well before Judge Molina, he gave her judgment for $12.50 for the old machine, $16 for the payments she made and $2 for court costs. Good for him!

Too Many Kikes

COURT REVERSES CONVICTION

TRENTON, N. J.,— The New Jersey supreme court reversed convictions of nine men accused of making or promoting anti-Jewish speeches at a German-American bund rally and held the state's race hatred law was invalid because it conflicted with constitutional guarantees of free speech.

Among the nine were Wilhelm Kunze, national bund leader, and August Klapprott bund eastern leader and manager of Camp Nordland, where the rally was held.

"To denounce one's fellows or advocate hostility to them. or a group." said the court, in an opinion by Chief Justice Thomas J. Brogan, "is as revolting to any fair-minded man as it is absurd and unjust to the mind of a thoughtful man; yet to make the speaker amenable to the criminal law his utterances must be such as to create a 'clear and present danger that will bring about the substantial evils' to society that the state has the right to prevent.

"The utterances must be such as constitute a danger to the state. We cannot say that the statements made by the plaintiffs-in-error were of this character."

'Rebel' Counties Pick State Name

YREKA, Calif.,— The rebel counties of northern California and southern Oregon selected "Jefferson" as the name for their proposed 49th state.. Simultaneously, they announced plans to abolish sales taxes, income taxes and liquor taxes.

The rebels—Siskiyou, Del Norte and Modoc counties in California and Curry county, Oregon—said they might finance their new state governement through a small royalty on mining and timber developments.

It was failure of respective state governments at Sacramento and Salem to do anything about their vast deposits of copper, manganese and chrome, as well as timber reserves, that brought secession threatss from the dissatisfied counties.

Unlimited Credit Plan

L. D. Beckwith, Stockton, California has written a booklet outlining "Nature's Plan of Economics", it is advertised in this issue of THE BROOM under the title: **THE ANSWER OF NATURE HERSELF.** There are so many people who have asked me to recommend a small booklet that would give a correct and concise summary of what once was known as Henry George economics, single-tax, scientific economics. Beckwith's book is the best answer to those who want to study the matter in a nutshell.

While you will profit from Beckwith's ideas, others have approached the problem of economics from an entirely different angle and they, too, can point to NATURE HERSELF as the prototype. Nature is awfully lavish, superabundant: there is more land than we could possibly use for the present population on the planet. There is more water than we handle. There is plenty of air and sunshine. Nature has given us life energies which would make the average life span 145 years, but we are stupid, we are committing suicide and cut the span in half. Same thing will be proven in natural economics, Henry George type, that production is cut in two by our method of taxation and even then, half the value of production goes to parasites who did not produce, but hold title to land and give no service whatever, even though they are in the minority.

This "unlimited credit plan" copied from nature herself, proposes to give every person born on earth all the financial credit he or she would demand to either study and develop their abilities to produce useful things, or else finance them without stint to go into business. A commission is to be created which would be composed of the best thinkers and experts in various lines who would conduct research and their findings to be available to any one who needs them. As consultants these experts are to supervise the financed enterprises in an advisory capacity only to help bring out the utmost possible through good management. The state is to get the securities of the enterprise as a basis for the loans.

This plan is based on the idea that individual initiative is the best motive power to prosperity. While some enterprises would fail, the rest would succeed so phenomenally that the state's share of the profit would more than even up things and leave enough for old age pensions.

Wheeler Renews Attacks on F. D. R.'s Foreign Policy

WASHINGTON,—Sen. Wheeler (D-Mont) renewed his attacks on President Roosevelt's foreign policy here with an assertion that ultimately it was liable to mean "the plowing under of every fourth American boy".

"Some months ago," Wheeler said in a statement to reporters, "I said the president's foreign policy meant the plowing under of every fourth American boy.

"That statement was denounced by the president, but certainly if we continue to pursue the policy that has been outlined to the president by the war makers within and without the administration, my former prediction will come true and we will be plowing them under not only in Europe and Africa, but in India and China."

The "Rabies" Racket

"Man's inhumanity to man has made countless thousands mourn." —Burns.

"I am a man and whatever concerns humanity is of interest to me."—Terence.

Editor, The Broom.

I read of the unfortunate incident of your son having been bitten by a dog and your sensible action in refusing the inoculation of puss which would endanger the life of that fine boy, David.

It may be of interest to many readers of the Broom and lovers of dogs to know of my experience while in San Diego the past fifteen years. The headlines of the daily papers are reviving the traditional rabies scare. It is simply beyond my comprehension how men like Dr. Lesem, who have all the facilities for research on this age old fallacy of hydrophobia or rabies as it is now called, can advocate the necessity of vaccinating dogs.

I have been searching for more than forty years in this country and European cities and never found a single case of this phantom disease as coined by Pasteur whose name is synonymous with suffering dogs.

When some veterinarian finds practice dull and wants to obtain free publicity he starts the rabies campaign and with the public ever ready for a shake down of its purse the cruel crime against man's best friend, the dog, goes on.

Sincerely yours,
C. A.. BENNER.

"The Fatal Number" ?

KANSAS CITY, Mo.,—"YE ED" of the K. C. STAR refers to the cipher prophecy from the Book of Revelation which was invoked against Napoleon following his invasion of Russia: "Here IS wisdom; let him that hath understanding, count the number of the beast; for it is the number of a man and his number is six-hundred, three score and six". By casting into the Hebrew system of enumeration, the words "L' Empereur Napoleon", the numbers added together made 666. An almost exact duplicate of this cipher foretold the doom of Hitler after "forty and two months" and identifying him numerically as the beast of the Apocalypse.

But "YE ED" has overlooked old GOG whose goggles obscure the Black Cat on the gang plank. It may be just as well that Soso Djugashvilli (alias Joe Stalin) does not read the Bible, else he would be seeing things more fearsome than ghosts. Interpreters of Holy Writ assert that Gog comprises the vastnes of what was once Russia; if so, Muscovy is going to be cut up quite a bit in the process of overcoming atheism and crushing communism. I hope, however, that no one tips Joe off what the nations that the Lord is sending against Gog, are destined to do to him for purloining the commisary departments of neighboring lands.

It would be real mean if any of the "FRIENDS OF (Joe's) DEMOCRACY" should mark and send him this passage from Scripture:

"I am against thee, O Gog, (Russia) and I will turn thee back and leave but a SIXTH part of thee". Eze. 39; 1.

O Gog, thou art a poor staff for Nudealers to lean on for who can prevail against the Lord? Why should the Heathen (Nudealers) rage because God wills the dismemberment of Russia? They might examine their own Temple for are they not particeps criminis? Are they not guilty of acts of omission as accessories after the fact? Is not Stalin using the Nudeal as a tool to defy the judgment of God? At least he tears the religious mask from Nudeal hypocrites whose shallow souls question the sincerity of real Christians and who would use the Hammer and Sickle to remake God's Kingdom as it has corrupted American traditions.

The white Norman Slavs are to be freed from the blood-sucking Bolshevik leech. There is little danger that any "Friend" will put Joe wise because Birkhead and Tozier are not familiar with prophecy not found in the Talmud and Elmer Gantry. But boys will be boys and Leon and Roy are just mischievous enough to slip this quote into Joe's pocket while he is dodging Stukas beneath the grim battlements of the Kremlin. Let each Nudeal Red look at the mug of this Rat in the Kremlin and repeat the words of Hannibal spoken when he saw the head of his brother Hasdrubal: "I see the doom of Carthage"; for the white Norman Slavs, Hungarians, etc., are out to avenge the rape of their women folk.

Ignorance may be bliss but Ezekiel pins the fatal number—SIX—on Mr. Gog and WORLD BOLSHEVISM even tho spiritual blindness spare him the nightmares that plagued old Banque. But it's no use, Joe. SIX nations of the anti-Commintern that Gog has defiled are ganging upon you and will leave but a SIXTH part of Gog's domain. Verily, a nation's sins will find it out and of a truth GOD IS KNOWN by His judgments. Nudealers should also be alert here in America,—remade, bankrupted and appropriated under cover of a pretended National Emergency.

But the fate of Gog is in the cards and they are stacked against Josef and Godlessness. So long, Soso. "Oh Ezekiel, Turn a Wheel" if thou must but, for America, let it not stop on SIX!

A DOSE OF MEDICINE

Editor:

My neighbor has a son working at the navy yard at Bremerton, Wash. He came home recently and told this story:

A welder was on his back doing some work on the British warship Warspite. An English officer seeing him there gave him a kick, then asked him if that was all he had to do, sleep on the job?

The worker dropped his work, got up, and said, "We do this work for nothing and you come along and kick us while we do it." Then he went into action. Knocked the officer down. The officer got up and was knocked down again loosening his front teeth that time. —Mrs. W. Scott, Woodinville, Wash.

Printer's Note—Maybe some of these days the rest of you Americans will realize as I do that England is still our worst enemy outside the United States. Inside, of course Rosenfelt and Jewish buddies are the worst.

City Applies for Injunction in Boarding House Row

The City Attorney has filed injunction proceedings in superior court against Chas. S. de Vilbiss, of 3944 Alameda drive, for operating a boarding house in violation of the zoning ordinance in a restricted district. The case came up last week before presiding Judge Edward J. Kelly, who refused to grant a temporary injunction before trial of the case on the merits, stating that it would be unconstitutional to deprive a person of his right to earn a living without due process of law. The case is coming up this morning (Monday) for trial on the merits, possibly in Judge Turrentine's court..

Since the first appearance before Judge Kelly, the City Attorney has amended his petition by adding two more grounds for granting the injunction, namely by alleging that de Vilbiss is violating the health board regulations in the conduct of his boarding house as well as the provisions of the state housing act.

This case is a test case and upon its outcome depends the disposal of a number of other similar cases of conducting boarding houses as an emergency operation to satisfy the ever increasing demand for board and lodgings for defense industries workers. The workers themselves prefer the boarding houses with their home atmosphere to the barracks set up by the government. With an additional prospect of 20,000 more workers coming to San Diego as the new additions of the Consolidated Aircraft factories are manned, naturally, there are not enough boarding houses instead of too many as the city authorities allege.

Attorneys for de Vilbiss are entering a demurrer on all points.

ROOKIE'S ANSWER TO FOOL QUESTION

The police department gives first aid instructions to its men. At the end of the instruction period, of course, oral examinations are held to find out how much each officer has learned.

Examiner: "What are rabies and what would you do for it?"

Rookie officer: "Rabies, rabbis, I think they are a kind of Jewish priests, and I wouldn't do a thing for them".

National City Now Direct Telephone Dial Connection

San Diego extended service telephone subscribers now may dial direct, without calling the operator, all telephones served from the National City exchange, where a dial program was completed Saturday night, bringing into operation new numbers with the prefix Greeley, according to A. V. Engel manager of the Southern California Telephone Company.

The conversion of the National City exchange to dial service precedes the delivery of the San Diego area telephone directory by approximately one month and therefore arrangements have been made to facilitate the handling of calls to Greeley numbers pending the distribution of the directory.

Mr. Engel said that extended service subscribers unfamiliar with the new numbers of Greeley telephone users will be informed as to them by the operators when calls are placed in the regular way; then, the callers will dial the new numbers direct, just as they dial local numbers.

Completion of succeeding calls will be speeded if callers will make note of the new numbers when they first obtain them, the manager said.

The manager said that any extended service subscriber who has occasion to call Greeley numbers frequently will be supplied with a supplemental directory containing the new numbers if he applies to the telephone company business office.

New area directories to be distributed here and in the other exchanges of San Diego county around the end of this month will contain the new Greeley numbers.

Breathing Scientifically

By Dr. O. Z. Hanish

Exhaustless is the study of breath and the scientific application of it to life's daily needs, thus forming a basis for a never-ending study and research. It is one thing to breathe and quite another thing to breathe consciously, **intelligently.**

To breathe consciously, intelligently, one must be able to control the **rhythmic** action of the breath; for in conscious breathing alone is man able to break the fetters that bind him to his lower nature, thus setting his higher nature **free.** It is through scientific breathing, rhythmic breathing, that one becomes **conscious** of **himself,** thereby entering upon paths of pleasure and delight. Emancipated from all past encumbrances that have bound and have enchained him to a miserable existence of enslavement through ancestral and pre-natal influences, he arises a kindly-born being, nevermore to eat the bread of sorrow, adversity, sin, disease and death. Life becomes, indeed, a "glad, sweet song", joyously climbing the ladder of life. Thus freed and emancipated from the limitations of time, we continue to perpetuate the principles of Mazdaznan, ever pointing the way toward a neverending perfection.

This is the day of **realization**—of **interpretation!** Let us arise to the glorious recognition of our **divine origin!**

THE ANSWER of NATURE HERSELF

For twenty years I have sought through the columns of my weekly newspaper (and by occasional letters in other publications) to show that economics is a science as exact as any science and that we can, by resort to natural law (and regardless of the morals of men), solve our social problems as we solve shop problems.

That experience taught me that presentation is too fragmentary and that I must write a book. That book is now ready. It is named **The Answer by Nature Herself—Written by L. D. Beckwith from her Notes.**

Just as the multiplication tables contain Nature's answers to all questions in that field; so does this book contain Nature's answers to all questions in this field.

Two hundred-sixty copies of the Answer were sold in nineteen states and Canada before any one had seen a copy of it—150 copies by mail from the outside: 18 in New York. 14 in Pennsylvania, 11 in Illinois, Canada 3.

A book in dialogue, 240 pages containing 105 conversations, well printed, sewed in flexible fabricoid covers.

Price $2.50, postpaid; if not at your dealer's address—

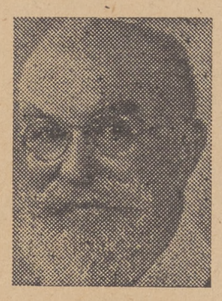
AUTO-EXHAUST-GAS A POISON

Everyone knows that the carbon-monoxide fumes from auto-exhaust are a deadly poison if inhaled in concentrated form; but few realize the injurious effects of the diluted "auto-exhaust" on crowded streets.



Dr. Geo. Starr White

Many children are made sick from inhaling carbon-monoxide gas from automobile exhausts. Next to tobacco-smoke, auto-exhaust is the worst enemy of the respiratory sistem that we, in the cities, have to deal with.

No child should sit in an active garage while the car is being looked over, or "tuned up". As much as possible, keep out of automobile "jams"; especially when children or invailds are along, as the poison gas impregnates the air in such "jams".

Babies, young children, and the sick, are especially susceptible to "CO" gas. Many babies are killed by automobile exhaust-gas, when they are supposed to have died from other causes.

Many children lose their appetites from inhaling this gas. Many puny, sickly babies can be restored to health by keeping them out of automobiles and the consequent exhaust when in a "packed" street.

I am seeing more and more patients of all ages with respiratory troubles that I feel sure are caused by auto-exhaust-gas-filld air.

All should strive to be in fresh air—not polluted with smoke or gas of any kind. For children and all those suffering with troubles of the respiratory tract, this is especially important.

We do not have to go to "war zones" to be made sick by "poison gas".

"Does Rabies Occur In Man?"

By Dr. William Brady

Distinguished Medical Syndicate Writer, Los Angeles Times, Sept. 13th, 1934. In San Diego Sun about the same time.

"A Matter of Opinion"

"There is absolutely nothing scientific about the alleged diagnosis, prevention or treatment of rabies in man. There is nothing scientific about the diagnosis of rabies in animals. It is all a purely empirical question of individual opinion. Even the so-called negri bodies, regarded by some pathologists as characteristic of rabies, is a matter of personal opinion merely; one good pathologist will believe the microscopic section he examines shows such bodies, while another equally competent laboratory pathologist scrutinizes the same microscopic section and believes what his colleagues takes for negri bodies are actually red blood corpuscles of irregular type. But of course the public gets the benefit of the doubt and the laboratory report of the examination of the animal's brain comes back 'positive' and another rabies scare is on.

Martin Luther's Warning

Martin Luther, who certainly knew as much as any other individual about religions, their background and their moral influence, said:

"I'm not concerned with converting the Jews as that is impossible . . . We Gentiles are in their estimation not human beings, and as worms are not considered by them at all . . . Our people should be on their guard that they may not be led astray by this hardened and condemned nation . . . They are real liars and blood-hounds who perverted the entire Scripture with their lying interpretations and the anxious longing and hoping of their hearts is to deal with us Gentiles as they dealt with the Persians in the time of Queen Esther. . . . Never has the sun shone on a more bloodthirsty and revengeful people who believe themselves to be God's children that they might murder and strangle the Gentiles and that is the main task they expect their Messiah to do for them; that he should murder and exterminate the whole world for them.

"Therefore know that in their school there is nothing but a devil's nest; nothing but vain boasting, lying and blasphemy of the most poisonous, bitterest kind. God's wrath has given them to such thoughts that they think their lying and cursing all men is doing God a just and great service and well becoming to such as they of noble blood and circumcised saints. . .

"From their youth up they have been saturated by their parents and rabbis with such venomous hatred against us that it has penetrated to the very marrow so that it has become a second nature; so they must remain and perish unless God will perform a great miracle. Therefore know, dear Christians, and never doubt that next to the Devil you have no more bitter, venomous and violent enemy than a jew who is everything that a jew should be. . . . "

WANTED: A JEHU

If you have noticed the shoddy sheen
About the fame of our Big Red Queen
It is more than likely that you are alive
To the big Red Drone in our White House hive.

But you are "anti" something, a mean old meanie
To call either one a subtle sheeny
They are a foxy pair, as we well know
And boon companions to Kremlin Joe.

Mankind is puzzled to know who's worst,
Hitler, Stalin or Franklin the First.
Take then your choice, but hold your nose,
For it smells the same, however it goes.

Each wants his "New Order" with total power.
The earth now faces its darkest hour.
They are filling the earth with strife and hate,
While grabing for power both early and late.

Earth is becoming a modern hell thru
President Ahab and his Jezebel.
Lord, send us a Jehu, strong and great,
Who shall do the job when he enters our gate.

PROUD LITTLE SOCIALITE

She wouldn't have a coming-out party.
She declared two years ago.
It was just like being put
On the market, for sale.
Ouch! That was a hateful slap
At other debutantes and their mammas
Who give the coming-out parties
Because it is the custom.

The little socialite was crude, to say the least.
Everybody knew she'd have dozens of parties.
She's been having them since she was a baby.
And look! What is she doing?
Getting ready to marry a man
Old enough to be her grandfather!

Now the other young socialites
Are laughing in their sleeves.
They are taking hubands who are
About their own ages, at least!

Editor's Eye Injured

While driving on Normal Ave. about ten days ago, I was surveying the nice flower growing parking and saw a great waste of water flowing across the street into the storm drain. While the city does not have to pay for that water at meter rates, nevertheless, why waste it? And suddenly a Greyhound bus swished by as I was driving slowly. A jet of water hit me in the left eye as pointedly as if a finger had been thrust into it. I had to pull to the curb and stop till I could see again. Luckily it was clean water.

A few days passed and no bad after effects even though the eye ball must have been bruised. But on Tuesday morning, last week, I discovered that the pain had been acute enough to prevent me from typing our radio script. I have never missed an issue of THE BROOM and I keep my radio program on the dot each week, so the next best thing I could do was to go down to KGB and record my extemporaneous speech in advance.

If you have not stood before a dead mike to record a speech for which you made no preparation, have no notes to read from and are new to the procedure, you won't appreciate the fix I felt myself to be in. But every baby is ugly when new born, except to his mother, of course; and so I just went ahead and spoke my speech into the record, improvising as I went along. Towards the end when Jim Dillon gave me the one minute sign to get ready to close, I suddenly realized that we had not pre-arranged the signal for the end of the time itself, so I got worried how to know when that darn minute would be up, lost the thought of my closing sentence, gropped around for the last word and finally closed. The whole presentation of that first recorded talk, was so excruciatingly bad, I decided that as a change from the routine it would be good. You know when something is extraordinarily beautiful or extraordinarily ugly, it creates a sensation and in the show business that counts.

I stayed home and listened to myself groping for words, wheezing with each breath like an old man with the asthma, or the way Herbert Hoover and Senator Hiram Johnson wheeze between sentences. And after the ordeal was over of listening to myself, I became more determined than ever to have a record made of my usual script talk, to hear it so that I might learn where my presentation needs improving.

Anyway, Mrs. de Aryan said, I had more guts than she would have had to get there without preparation and speak for the record. But that's what it takes to get things done in this world. By and by we improve; still the start must be made.

By the time you are reading this the eye is normal again.

Few people realize when they read a good story in the paper, or see a good show or hear a program that pleases the ear, what amount of technical detail work went into play to produce the effect of naturalness. It gave me excruciating pains to listen to my record over the radio; the subject and the words were good, the presentation monstrous; in fact I was surprised the station permitted it on the air. But, evidently, we cannot learn to do better unless we see ourselves as others see us and hear ourselves speak.

Suppose on the day of judgment we are faced with everything we said and did, I guess, most of us will suffer even more excruciating pains listening to our own record, than I did. At least the theme was good and merely the presentation execrable, but what if your motives are bad, too?

Think of the Judgment Day, everyday, and improve your life so you won't be sorry!

ATTENTION !

The National Legion of Mothers and Women of America are asking that all peace organizations and patriotic women write to the Radio Commission, Washington, D. C., and to the sponsors of products advertised over the three large radio networks, telling them that the Mothers and Women of America will not buy products advertised over the three networks until free speech is returned to such patriotic American citizens as Lindbergh, Wheeler and others. The address of the above organization is: "The National League of Mothers and Women of America, 241 South Western Ave., Los Anglees."

Modern Maid Writes to Boy "in Service" at Sea

(Concluded from last week)

My dear beloved Parsifal!

Don't think I am not willing to sacrifice—I have sacrificed, and that is no melo-dramatic statement, but something that can only come out of many grey and dismal hours. But even in the worst sacrifice, I knew that I was doing right. If I were to sacrifice my feelings for you, if that were possible, I would be doing something both unrequired and **wrong.** Perhaps we are not meant for each other, if that is so I promise even as you will, not to withhold my love for anyone else. But this I and not you must be the judge of in **my** heart, and **you** in **yours,** and if it is my pleasure to wait for something that may never come that is my doing and responsibility and in no way obligates **you.** Only, my dear, do not deny yourself what good there is in the world, take what love comes along and let it be a source for you, content yourself with it since it is there for your pleasure, and above all, do not feel it is some temptation to be withstood. You're bound to find out sooner or later that all women are not good, that all women do not even love—I told you, you had desert first, and though I am far from claiming to be a good woman, at least I am not using you to my own ends. I am no Venus, no Circe, no siren waiting to tantalize you away from your progress and fortune—I am simply one who loves you, asking no more than love in return, which you already have given me and again given me in spite of your letter. It is more than enough. I would bind you to nothing. The physical consummation of our love is not an end to which we would strive, but rather a thing we would pass through on our way to other things. Only if you wish to pass through that way it would have to be through marriage, because our love is no thing to hide under a bushel. I have often wished that I could marry, and still retain my freedom—who, knows, but what there may be such a thing as different for us, as the course of our love has been. You going your way, I going mine, together even when apart and when we do come together rejoicing in those privileges which marriage would entitle us to. In some ways it is the ideal arrangement, as we would never grow tired of each other, somewhat the way it is with my parents. But we are both young; there is no need to talk of such things. But only for the sake of your peace of mind, do I say that it may be possible to find happiness this way.

This is all I have to say for the present (are you relieved) except for two things. It is not noble, kind or right but very cruel to refuse what gifts the Lord would lay in your lap, nor is it kind if you refuse to write me when you can, telling me of your adventures etc. as you have in the past, and secondly, when you return to this country to endeavor not to see me. You cannot ask that of me, and there will be no other demands that I will make of you. Grant me those two things, and it will help us both to live, help us both to face the future in which our generation will surely have an important part. Remember I am for all my meanderings still an American, and all American women when it comes right down to it, are brave; they have pioneered, faced danger, starvation, heartbreak for the sake of the men and the country they loved. I love you, you are serving your country; let my love help you in that service both to your country and to humanity—you may rest assured it will **never** do otherwise. Believe me, darling, I am working and shall live for your **good,** which is mine as long as I love you, and **your** happiness, which is mine also. I hardly would presume to tell you what your good and happiness are, since you will know that better than I (I hope) and vice versa you must never, never again say **"don't** wait for me" because that would be very presumptuous indeed.

This letter may not reach you for a long time. I am sending a copy to Honolulu, to Singapore even though you may never go there, but there will also be a copy waiting for you in San Francisco when you return, becauses dates will make little difference in a subject which is timeless. And if you are in San Francisco when you read this, LET ME KNOW or you will be faced with eternal damnation by the entire BUNNIES UNION, which I have just joined in self-protection!

Wars or no wars God **will** keep you safe and you **will** come back to something if not to me, as long as you keep yourself open to the powers of GOOD and LOVE that follow along with you, in the very spray of the sea, the light of the sun and the boundless comfort of the night—

I love you truly,
Your Girl.

"In purchasing offerings of Government bonds, the banking system as a whole creates new money, or bank deposits. When the banks buy a billion dollars of Government bonds as they are offered—and you have to consider the banking system as a whole, as a unit—the banks credit the deposit acount of the Treasury with a billion dollars. They debit their Government bond account a billion dollars, or they actually create, by a bookkeeping entry, a billion dollars wherewith they buy the bonds."—Governor Marriner S. Eccles of Federal Reserve Board in testimony before the Banking and Currency Committee, 1935.

Editor Protests Use of His Name

S. L. Brogden, State Chairman
CITIZENS NO FOREIGN WAR COALITION, Inc.
57 Post Street, San Francisco, Cal.

Dear Mr. Brodgen:

Must beg your pardon for not answering your letter of Nov. 28, sooner, in which you ask me about an article concerning Assemblyman Jack Tenney, Chairman of a Fact Finding Committee on Un-American Activities. I am an awfully busy man and could not get at the task of even putting my mind on your letter till some more important matters were attended to first. Now as I read it I do not recall having stated anything else in the article you mention except the bare fact of the Fact Finding Committee being formed to investigate. If there is something more, of course it could be found in my file, but not having any employees, personally I lack the time to hunt for that story.

While your letter was laying on my desk and I saw it for days there, not till now that I noticed my name on your letterhead as representing your regional office in San Diego. You also informed other people that I "consented to head" a local organization branch.

Mr. Brogden, I am never afraid to stand up for my convictions and I circulated the petition you sent me against WAR Mobilization, as I am circulating petitions to impeach President Roosevelt, but, I am used to chose my own place in which to land when I jump across conventional lines. I do not remember having authorized you to name me your representative in any way, or to use my name on your stationary.

Will you kindly cease and desist. People who do such things are not worthy of my trust.

Yours truly
C. LEON de ARYAN.

Chiseling Insurers

WASHINGTON NATIONAL INSURANCE CO.

San Diego school teachers pay most promptly $30 a year insurance premiums to the Washington National Insurance Co., Robert Driver, manager, in the Commonwealth building. But when it comes to get their insurance in cases of illness or accidents, every possible delay and chiseling method is being employed by the insurance office so that the victims among the school teachers have to write letter after letter to get their benefit payments while they are laid up and their regular school salary has stopped.

We hope Mr. Driver will arrange payments by his office as promptly as the school teachers are prompt in making their premium payments, unless the conditions, as they exist today, would make it advisable to look elsewhere for sickness and accident liability insurance.

DESERTERS CROWD JAILS

Desertions from ships visiting ports of South Africa have become so numerous that all immigrant quarters are overcrowded and many seamen must be kept in jails.

There are a few American businessmen who are not afraid to call their souls their own, you'll find their advertisements in THE BROOM.

Patronize them !

97 More Lawsuits ?

Since the last issue of Roll-Call, 97 more American naval seamen have lost their lives in a convoy engagement in the North Atlantic. The Reuben James was essentially in the unlawful service of the British Navy when a German torpedo struck her and she went to the bottom. Reports will not be suppressed that like the Kearney, she was fighting a running fight with German U-boats, "shooting on sight" on the illegal orders of President Rosevelt. Not only have 97 fine men laid down their lives, but the Navy has suffered the loss of a destroyer. We are not at war with Germany—excepting in the minds of some Jewish politicians. The Nazis are not "pirates" either, as these Jews delight to name them, but embattled seamen pursuing hostilities after the accepted rules of war.

Last week Roll-Call stated that men and ships thus lost were directly chargeable to a President who is insolently proceeding on his personal responsibility. Now listen to confirmatory evidence from Senator George D. Aiken of Vermont—

"If men died in the sinking of the Reuben James, they died in the carrying-out of orders given by President Roosevelt as commander in chief of the Navy, and the President was personally responsible for their deaths. When the lend-lease bill was enacted into law," he said, "we were assured that it would not permit convoying—we were told time and again that convoys were not contemplated, and that our ships would not be used for this purpose. Yet our ships have been engaged in convoying and have been ordered by the President to hunt down and sink ships of another nation with which we are not legally at war. These orders were given without the knowledge or consent of Congress.

"Had the President and members of his Cabinet kept their promises, the men of the United States Navy would not lie rotting on the ocean floor today. It is time to place the responsibility for these deaths squarely where it belongs. It is time to stop making apologies for those who do not deserve them.

"By ordering convoys in spite of his repeated promises and in contempt of existing law and the Congress, President Roosevelt is personally responsible for whatever lives may have been lost—and his disregard for representative government constitutes a greater menace to democracy than war itself"!

HAGOOD CONFIRMS IT

Comes now General Johnson Hagood and adds his ten cents' worth. Among other things the General writes in the current Collier's Weekly: "Like any other commander of the land and naval forces—a general, an admiral or a corporal—he can operate only within the law. No man is required to obey an unlawful order, whatever be the source. And since the Constitution merely gives him the title, assigns him no duties, and provides specifically that all of 'the rules for the government and regulation of the land and naval forces' shall be made by Congress, the President cannot make a move without the authority of the legislative body." So saith General Johnson Hagood, who ought to know what he is talking about.

It would seem, however, that a Roosevelt who has the Hitler-hating Israelite bloc behind him, is above the law, and because he gives not a whoop for the gigantic WPA Project that is the Congress by his largess, 77 men are lying dead on the Atlantic floor tonight who were alive and beloved by their families one short week in the past. Should he be referred to courts of law or should he not? And is the question not a sound one—

"Is there one American law for Presidents by the name of Roosevelt, and another American law for common citizens by the names of Jones and Smith?"—Roll Call.

The Vikings established the first Parliament in Iceland in 630.
